the People. THE CAUSE OF HALF THE WORLD'S SUFFERING.

Always Worse in the Spring Months BUT ALWAYS CURED BY

BLOOD AND HERVE REMEDY.

"HE sufferer from Dyspepsia is always blue and discouraged. He sees no bright side to anything. A slight fullness and distress with indigestion after eating, which are

the first symptoms of indigestion, do not seem to be serious.

But think of the reason for this distress. It means that there is a form of irritation existing in the delicate membrane that lines the stomach. This slight inflammation soon increases. Pretty soon there is an internal sore, an ulcer is formed, the patient suffers more. This unhealthy sore begins to eat away the

lining of the stomach. There is a discharge from it which spreads, is taken up by the blood, is carried to other parts of the body, and other organs become likewise diseased. Many severe symptoms arise, headaches, lassitude, pain in the back, all due to the poison coming from the seat of the inflammation being conveyed to all parts of the If neglected, the last stage follows. Doctors call it gastritis. The sufferer reaches a point where he can scarcely eat anything. What he does not nourish his system, because the entire nuccous membrane of the stomach is coated over with life-consuming sores.

Fir. CHARLES W. HUBBARD, a well-known and popular citizen of Bangor, Fle., says in regard to this subject:-'For over two years I suffered terribly with dyspepsia and was in very had shape. I lost my appetite and it was perfectly agonizing for me to attend to my work at times. I could eat nothing hearty without being distressed by the most excruciating pains

imaginable, so I had to rely upon cereals and other easily digested foods. I consulted several eminent physicians of Bangor who prescribed for me. I took bottle after bottle of their medicine, but no relief came to me. Last June I commenced taking Dr. Greene's Nervura blood and nerve remedy, and used four bottles. To-day I am a perfectly healthy man, and able to attend to business with my accustomed vigor, with restored appetite and strength."

### Dr. Greene's NERVURA IS THE GREAT REMEDY TO GURE.

The Best Spring Tonic and Invigorator You Can Possibly Get.

Hon. WILLIAM HOPEWELL, President of the Common Council of Fall River, flass., says:-

"I am happy to add my testimony to the many others in this letter which I cheerfully write. Three years ago I was so I could eat only eggs and milk. This condition used to come on me summers for a long time, and with a complete loss of appetite. I had seen Dr. Greene's Nervura advertised as the prescription of a regular physician, and had conditions. and had confidence in it for that reason, and the many cures I heard of. So I took two bottles and was completely cured, and have had no return of the trouble since. There can be no doubt of the most excellent curative properties of Dr. Greene's Nervura, which I freely endorse. You are at liberty to publish this letter for the benefit of others."

Mrs. EDGAR E. SMITH, 287 Appleton St., Lowell, Mass., says :-"Dr. Greene's Nervura blood and nerve rem-

edy has helped me of a very bad case of nervous dyspepsia. I was taken sick about five years ago from overwork. I was in bed three months and was miserable for a year. I had three different doctors and at last I tried Dr. Greene's Nervura blood and nerve remedy, and it has done wonders for me. I could not est anything, and now I can eat as well as anybody. That is all I can tell you. My husband is a well-known fireman at the Westford St. engine house, and everyone in this city knows him, and everyone knows I was sick for a long while and had to give up work on account of my stomach trouble.

Dr. Greene, in his great practice, meets daily many cases, and has the pleasure of

MOSES IS RIGHT

He Says Peddlers Should Contribute

a License Fec. Kansas City, Feb. E.-E. R. Moses, sen. for member of the firm El. R. Moses Mercentile Co., of Great Bend, Kan., passed through Kansas City yesterday on his way home from Topoka, Mr. Moses has been at the state capital for a few days working in behalf of the law to licensa peddiers and also on the revision of the

mortgage and promissory note bill. "There is no reason," said he reaserday, "why peddlers should not pay a Bcenne the sume as any other merchant. On the contrary, there is every reason why they should. Down in Barton county last year a positive sold know simply flour chest. Last year also another paddier in the same county made \$5.00 in selling putent wire fence rights. These are only instances. The profilers Scenes, will by no means be prolifitory, but will rungs from \$6 to \$50 according to the ar-

tisles wold." Mr. Mores thinks there is no question but what the bill will pass. He bears thattering tales of prosperity in Barton county.

SPECIALIST IS COMING

German Expert to Investigate Ullilly of American Machinery. Washington, Feb. 21.-Baron Herman, agricultural expert of the German conmay, has received word from the German government that a specialist, designated by the agricultural societies, will feave Berlin soon for the United States to make a careful inquiry into the use f American agricultural machinery, with a view to introduction into general use in Germany. Baron Hermann for some time has been sirging on the German authorities the marked advantages of American agricultural machinery. He lieses upon the move as one likely to prove beneficial both to German agriculture and American manufacturers. The agricultural sections of Germany are being depopulated while the manufacturing cenire are becoming overcrowded, and it is felt by the German government to be dosirable to give every motern facility to the agricultural class to forcess the pro-ductive capacity of the farms to their full limit. Baron Hermann has seged this upon the government and it is now
